TCS EngiNx 2019 - Digital Eminence : Making Things Smart | Contest Registrations close on 25-Mar-19.

EngiNx is TCS's Pan India **Engineering Design Contest** for the Next Generation, organized annually since 2013.

We are glad to inform that we have launched the seventh edition few weeks back. In the past six editions of TCS EngiNx we have been seeing phenomenal innovations that help humanity in leveraging the best in latest technologies. Many finalists of past editions, have joined us as TCSers, in the journey of Engineering Innovation!

This year, **EngiNx** is conceived as **"Digital Eminence - Making Things Smart Challenge"** setting college grads passing in years 2020 and 2021 on the quest of identifying use cases and providing engineering solution to a real world problem, by connecting the **'Sensors to the Software'** and enabling efficient decisions through **Engineering Algorithms** to the end user.

So far, more than 27,000 students across India have registered for the contest.

Last date for registration is 25th March 2019
Registration Link: https://on.tcs.com/2NdYGHX (students can view all details and register for the contest on this link)

Requesting you to share this information with students from your institute, and encourage all of them to leverage this excellent opportunity. As this is a team event, students should form teams and also enthusiastically participate in Round 1 of the contest (an online round consisting of Multiple Choice Questions).

Hope to see your teams winning this contest and bringing laurels and pride to the prestigious institute.

I would also like to share one student's **"Journey from EngiNx to EIS"** - this can be viewed at the below link on Campus Commune. In case you are unable to view it at that link, a PDF version of the article is attached with this email.

https://campuscommune.tcs.com/channels/eis-engineering-and-industrial-services/blogposts/journey-from-enginx-to-eis-thomas-vimal-easo-k-eng

Important dates of the contest are given below for your quick reference.

Event	Start Date
Registration Start	15-Feb-19
Close of registrations	25-Mar-19

MCQ Quiz	28-Mar-19
Evaluation and results to be shared (300 teams)	30-Mar-19
Round 1 (Use Case Proposal Round)	3-Apr-19
Use case Proposal Submission	21-Apr-19
Evaluation and results to be shared (150 teams)	24-Apr-19
Round 2 (Video Presentation round)	7-May-19
Video presentation Submission	9-Jun-19
Results to be shared (100 teams)	10-Jun-19
Interactive evaluation with top 50 teams completion	19-Jun-19
Round 3 (Grand Finale Round)	13-Jul-19
Submission of Presentations	6-Aug-19
Grand Finale	9-Aug-19

Thanks and Regards
