

# XenonStack

A Stack Innovator

# ABOUT US

XenonStack is a leading software company in product development and solution provider for DevOps, Big Data integration, Real Time Analytics & Data Science.

XenonStack vision is to build data-driven enterprise solutions, easing the human life using analytics and IoT products or contributing towards high performance and reliable solutions.

# What We Do?

**DevOps & Continuous  
Delivery**

**Big Data Consulting  
& Solutions**

**Machine learning &  
Decision Science**

# Our Business Model

## Consulting Services

Data Driven Enterprises

## Data Engineering

Real Time & Batch Analytics,  
Data Warehousing

## Artificial Intelligence

ML & DL, NLP, Computer vision

## IT Infrastructure Services

DevOps & Infrastructure Automation

## Managed Services

XenonStack Support & Services

# XenonStack

*Proactive Agent in Dynamic, Innovating, Transforming world and simplify IT with design*

Foundation Year

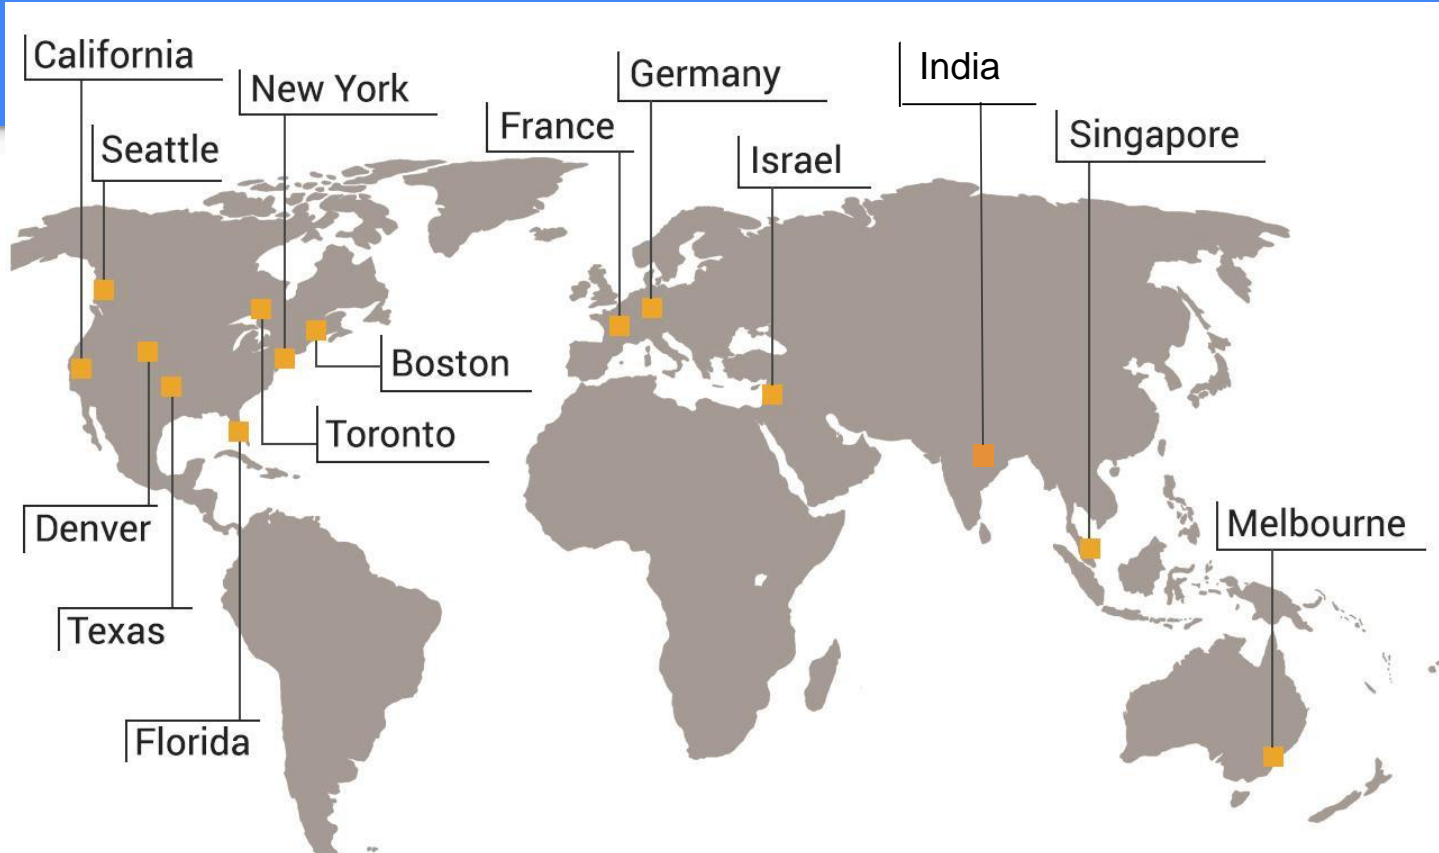

Startup of the Year 2017  
by TiE Chandigarh  
and STPI Mohali.

Product Of The Year 2018  
by TiE Chandigarh  
and STPI Mohali.

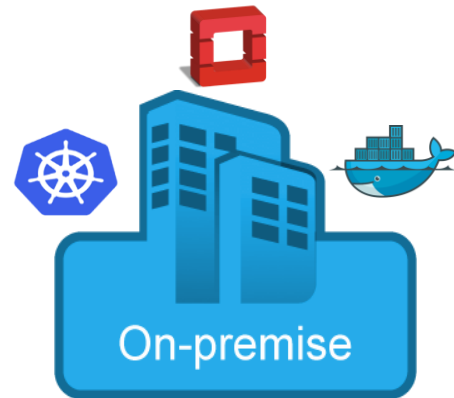

# Serving Globally Clients

# Cloud Consulting & Deployment

Google Cloud Platform

# What we doing in Cloud & DevOps?

**Consulting  
Services**

**Microservices & Serverless  
Computing**

**DevOps for ML**

**Cloud Assessment  
Services**

**Cloud Infrastructure  
Monitoring**

# What we doing in DataOps & Big data?

**Integration Services**

**Infrastructure Solutions**

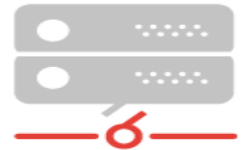

**Consulting Services**

**Real-Time Data Processing  
on Docker & Kubernetes**

**Data Ingestion and  
Data Processing for IoT  
& Big Data Solutions**

**Big Data Warehousing &  
Data Lake Solutions**

# What we doing in ML & AI?

**Predictive Analysis  
Solutions**

**Data Analytics  
Model & Algorithms**

**Data Product &  
Decision Science**

**Data Cleaning  
Services & Solutions**

**Advanced Data  
Visualization Solution**

**Data Wrangling &  
Munging**

Retailers

# Clients & Partners

# Top Management

## **Navdeep Singh (Founder)**

Entrepreneur ,Technology, Product Architect and 15+ years of experience in Telecom and IT Passion about Algorithms, Data and AI .

# Our Team -

# Engagement Model

## Managed Center of Excellence

You determine the work methodologies and policies that the team follows

Resources will be available for travel in your interest whenever needed,

Quick information flow and exchange,

Dedicated resources, assigned as per your requirements

## Project Delivery Model

Fixed cost based on milestones.

Project Delivery within specified time frame.

Intelligent Project Management.

Time and cost estimation carried out before the project kick-off

## Staffing/ Augmentation Model

Provide skilled labor for a defined time.

Best fit When you have a defined scope and timeline,

Fixed price,

Onsite

## Time & Material Model

Based on the project cost incurred by the resource usage in a particular time period.

Adequate scope modification during execution

Strict project management and reporting practices.

Regularly-generated task sheets
